INTERIM RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2020

CHARACTERISTICS OF GEM ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the "Director(s)") of Royal Century Resources Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this announcement misleading.

The Company's auditor has reported on the consolidated financial statements for the year ended 31 March 2020 of the Group. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under Sections 406(2), 407(2) or 407(3) of the Companies Ordinance (Cap. 622).

3. PRINCIPAL ACCOUNTING POLICIES AND ADOPTION OF NEW/REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKRFS")

The unaudited condensed consolidated financial statements have been prepared on the historical cost basis except for investment property that is measured at fair value.

The significant accounting policies that have been used in the preparation of the Group's condensed consolidated financial statements for the six months ended 30 September 2020 are consistent with those adopted in the preparation of the Group's annual financial statements for the year ended 31 March 2020, except as described below.

The Group has adopted and applied, for the first time, the following new standards and interpretations that have been issued and effective for the accounting periods beginning on 1 April 2020:

Amendments to HKASs 1 and 8 Definition of Material

Amendments to HKAS 39, HKFRSs 7 and 9 Interest Rate Benchmark Reform

Amendments to HKFRS 3 Definition of a Business

Conceptual Framework for Financial

Reporting 2018 Revised Conceptual Framework for Financial Reporting

Except for the amendments to HKAS 39, HKFRSs 7 and 9, which are not relevant to the preparation of the Group's unaudited condensed consolidated financial statements, the nature and the impact of the new and revised HKFRSs are described below:

Amendments to HKASs 1 and 8

Amendments to HKAS 1 and HKAS 8 provide a new definition of material. The new definition states that information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. The amendments clarify that materiality will depend on the nature or magnitude of information. The amendments did not have any impact on the Group's interim condensed consolidated financial information.

Amendments to HKFRS 3

Amendments to HKFRS 3 clarify and provide additional guidance on the definition of a business. The amendments clarify that for an integrated set of activities and assets to be considered a business, it must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. A business can exist without including all of the inputs and processes needed to create outputs. The amendments remove the assessment of whether market participants are capable of acquiring the business and continue to produce outputs. Instead, the focus is on whether acquired inputs and acquired substantive processes together significantly contribute to the ability to create outputs. The amendments have also narrowed the definition of outputs to focus on goods or services provided to customers, investment income or other income from ordinary activities. Furthermore, the amendments provide guidance to assess whether an acquired process is substantive and introduce an optional fair value concentration test to permit a simplified assessment of whether an acquired set of activities and assets is not a business. The Group has applied the amendments prospectively to transactions or other events that occurred on or after 1 April 2020. The amendments did not have any impact on the financial position and performance of the Group.

The New Framework:

- reintroduces the terms stewardship and prudence;
- introduces a new asset definition that focuses on rights and a new liability definition that is likely to be broader than the definition it replaces, but does not change the distinction between a liability and an equity instrument;
- discusses historical cost and current value measures, and provides additional guidance on how to select a measurement basis for a particular asset or liability;
- states that the primary measure of financial performance is profit or loss, and that only in exceptional circumstances other comprehensive income will be used and only for income or expenses that arise from a change in the current value of an asset or liability; and
- discusses uncertainty, derecognition, unit of account, the reporting entity and combined financial statements

Consequential amendments have been made so that references in certain HKFRSs have been updated to the New Framework, whilst some HKFRSs are still referred to the previous versions of the framework. These amendments are effective for the Group's annual period beginning on or after 1 April 2020, with earlier application permitted. Other than specific standards which still refer to the previous versions of the framework, the Group will rely on the New Framework on its effective date in determining the accounting policies especially for transactions, events or conditions that are not otherwise dealt with under the accounting standards.

Accounting policies newly applied by the Group

In addition, the Group has applied the following accounting policies which became relevant to the Group in the current period.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants relate to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under "other income".

The Group is in the process of making a detailed assessment of the possible impact on the future adoption of the new/revised HKFRSs. So far the management is of the opinion that the adoption of the new/revised HKFRSs will not have any significant impact on these unaudited condensed consolidated financial statements.

4. REVENUE AND SEGMENT INFORMATION

Revenue represents income arising from fitting out and engineering services provided, design and procurement of furnishings and related products services provided, rental and installation services income from leasing of construction equipment, sale of fine and rare wines, interest income from money lending and commission income from introducing brokerage services.

An analysis of the Group's revenue for the period is as follows:

Information reported to the executive directors, being the chief operating decision maker, for the purposes of resource allocation and assessment of segment performance focuses on types of goods or services delivered or provided. During the current period, the design and procurement of furnishings and related products services segment has been consolidated into the fitting out and engineering services segment in order to concentrate the resources of similar services activities and reflect a more appropriate co-related nature of the related services. The management considered that the change in segment disclosure better and clearly reflects the business development and structure of the Group, and helps the shareholders or the potential investors better understand the Group's revenue structure. The corresponding information for six months ended 30 September 2019 has been re-presented accordingly.

Specifically, the Group's reportable and operating segments are as follows:

- (1) Provision of design, fitting out, engineering and procurement of furnishings and related products services ("Design, fitting out and engineering services");
- (2) Leasing of construction equipment ("Leasing of construction equipment");
- (3) Sourcing and merchandising of fine and rare wines ("Wines merchandising"); and
- (4) Financial services business comprising securities advisory services, securities dealing and brokerage services and asset management services and money lending ("Financial services business").

This is the measure reported to the executive directors for the purposes of resource allocation and performance assessment.

25. COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the current period presentation.

MANAGEMENT DISCUSSION AND ANALYSIS

Royal Century Resources Holdings Limited (the "Company") and its subsidiaries (collectively the "Group") are principally engaged in (i) provision of design, fitting out and engineering services comprising design, fitting out, engineering and procurement of furnishings and related products services, (ii) leasing of construction equipment, (iii) sourcing and merchandising of fine and rare wines and (iv) provision of financial services business.

During the period, the provision of fitting out and engineering services segment and the provision of design and procurement of furnishings and related products services segment have been consolidated into the design, fitting out and engineering services segment in order to concentrate the resources of the design, fitting out and engineering services activities and reflect a more appropriate co-related nature of the design, fitting out and engineering services. The management considered that the change in segment disclosure better and clearly reflects our business development and structure, and helps the shareholders or the potential investor better understand the Group's revenue structure.

Financial Review

Revenue

The Group recorded a total revenue for the six months ended 30 September 2020 of approximately HK\$29.9 million (six months ended 30 September 2019: HK\$14.2 million), representing an increase of approximately HK\$15.7 million or 110.6% as compared with last corresponding period.

Breakdown of revenue by types of segments is as follows:

	For the six months ended 30 September	
	2020 20	
	HK\$'000	HK\$'000
	(Unaudited)	(Unaudited)

Breakdown of revenue by geographical locations is as follows:

	(Unaudited)	(Unaudited)	
Hong Kong	29,939	14,151	
	29,939	14,151	

The significant increase of the Group's total revenue was mainly attributed by the design, fitting out and engineering services business for the six months ended 30 September 2020 of approximately HK\$18.6 million (six months ended 30 September 2019: HK\$3.2 million). Besides, revenue from the leasing of construction equipment business of approximately HK\$3.5 million (six months ended 30 September 2019: HK\$0.3 million also attributed to the increase of the Group's total revenue. Such increase in the revenue of both the design, fitting out and engineering services business and the leasing of construction equipment business was the result of the effort made by the Group to tender and secure more design, fitting out and engineering projects with higher contract sums and the increase in the number of the leasing of construction equipment projects when compared with the last corresponding period.

There was a drop in the sales of fine and rare wines from approximately HK\$10.3 million for the six months ended 30 September 2019 to approximately HK\$7.5 million for the six months ended 30 September 2020.

The revenue from the provision of financial services were maintained at the similar level as compared with the last corresponding period.

Gross profit for the period

For the six months ended 30 September 2020, the Group recorded a gross profit of approximately HK\$6.5 million (six months ended 30 September 2019: HK\$0.9 million) representing an increase of approximately HK\$5.6 million as compared with the last corresponding period. The Group's overall gross profit margin was approximately 21.7% (six months ended 30 September 2019: 6.6%).

Gross profit/(loss) by types of segments is as follows:

Gross profit/(loss)	
for the six months	
ended 30 September	
2020 2	
HK\$'000	HK\$'000
(Unaudited)	(Unaudited)

6,494	936
	for the si ended 30 2020 HK\$'000 (Unaudited) 4,233 1,469 400 392

The increase in the Group's overall gross profit of approximately HK\$5.6 million was mainly due to the increase in the design, fitting out and engineering services business of approximately HK\$3.5 million and the turnaround gross profit of the leasing of construction equipment business to approximately HK\$1.5 million from last corresponding period's gross loss of approximately HK\$0.4 million. Such increase was mainly due to the significant increase in revenue from the design, fitting out and engineering projects with higher contract sums and the increase in rental income from the leasing of construction equipment with increase in the number of leasing projects during the period.

Loss for the period

During the six months ended 30 September 2020, although the Group has a gross profit of approximately HK\$6.5 million (six months ended 30 September 2019: HK\$0.9 million), the Group recorded a loss for the period of approximately HK\$4.0 million (six months ended 30 September 2019: HK\$12.9 million), representing a decrease in the loss for the period of approximately HK\$8.9 million or 69.0%.

Such decrease in loss for the period was resulting from (i) the increase in the Group's gross profit of approximately HK\$5.6 million and (ii) the Group's effort to reduce the administrative expenses by approximately HK\$3.2 million from last corresponding period of approximately HK\$13.9 million to the current period of approximately HK\$10.7 million mainly through (i) decrease in the staff costs of approximately HK\$0.6 million; (ii) decrease in short term lease payment of approximately HK\$1.0 million; and (iii) decrease in one-off legal costs for a claim amounting to approximately HK\$0.7 million.

Business Review and Prospects

Design, fitting out and engineering services business

During the period, the Group has consolidated the two segments, namely the fitting out and engineering services segment and the design and procurement of furnishings and related products services segment into the design, fitting out and engineering services segment in order to concentrate and effectively utilise the resources of the previous two segments.

Apart from the provision of design, fitting out and engineering services to the commercial institutions and the residence end-users, the Group has been extending its services to the public sectors including the public housing. The Group has also been proactively developing for cohesive business relationship with project contractors of different segments in order to widen its market spectrum.

The Group has proactively submitting tenders and managed to secure projects with contract sums of significantly higher than those for the year ended 31 March 2020, resulting with a significant increase in revenue for the six months ended 30 September 2020. With these brilliant results, the Group is vigorously in negotiation with a number of other potential customers and has successfully established business relationship with certain customers for the provision of design, fitting out and engineering services including provision of public housing maintenance, improvement and vacant flat refurbishment works and services during the period. Just before the end of the current period, the Group had orders from a contractor for the provision of vacant flat refurbishment works and services in relation to public housing which was commenced subsequent to the end of the reporting period. The Group expects such exploration and strategy will further broaden and strengthen the income stream and the sustainable development of the design, fitting out and engineering services business with maximization of return of the shareholders and the value of the Group.

Leasing of construction equipment business

The Group's leasing business has been in the initial growth and development phase during the last year and has progressive increase in number of customers and projects during the period. The Group has been building and consolidating business relationship with its existing customers and is able to explore new customers and conclude projects with significant contract sums. Although the growth rate may not be dramatically raised constantly, the income generating therefrom is relatively stable and low risk in nature which would progressively develop into an economic scale with considerable and sustainable income stream to the Group.

With the commencement of the infrastructural facilities such as the development and construction of the third aerial runway and the new airport terminal and buildings, it is expected that the leasing of construction equipment business of the Group would be benefited from such positive growth and development. During the past few months, the Group has explored and negotiated with the contracts alongside such development. The Group had secured orders for leasing of the construction equipment to be used in the third runway project of the Hong Kong Airport before the end of the current period, and the Group shall be required to deliver a vast amount of such scaffolding equipment to meet the upcoming demand of those orders. Given the vast amount of scaffolding equipment required for the gigantic third runway project, the Group had placed orders for purchase of additional scaffolding equipment to maintain sufficient amount for leasing purposes in order to meet the huge demand. The Group has commenced to deliver the construction equipment to the work sites of the new projects subsequent to the end of the reporting period.

Looking forward, with the branding recognition of the Group's leasing of construction equipment business and the enlargement of its operation scale, the rental income derived therefrom would have significant growth potential. With the ongoing increase in number of customers and projects, the leasing of construction equipment will be a major business segment attributable to the success of the Group in the coming years.

Sourcing and merchandising of fine and rare wines

The Group has developed and maintained a stable business relationship with the customers and the suppliers. The Group has been securing and receiving recurring orders from the customers. The Group expects the wine merchandising would be a stable income stream of the Group and the Group would maintain the wine merchandising at a steady level of operations.

Financial services business

The Group continues to adopt a prudent management approach to carry out the financial services business in order to minimize its credit risk exposure while proactively exploring and seeking for high creditworthiness customers to ensure a healthy development in its money lending, securities advisory services, securities dealing and brokerage services and assets management services business.

The Group's money lending business maintains a loan portfolio with principal amount of approximately the same level as at 31 March 2020.

Certain commission income was also recognised from the introducing brokerage services during the period.

EVENTS AFTER THE REPORTING PERIOD

(a) 2019 Noval Coronavirus

After the outbreak of the 2019 Noval Coronavirus ("COVID-19") in early 2020, a series of precautionary and control measures have been and continued to be implemented across the country/region. The Group will pay close attention to the development of the COVID-19 and evaluate its impact on the financial position and operating results of the Group.

(b) Proposed share consolidation and rights issue

As announced by the Company on 28 August 2020, among other things, the Company proposed (i) to implement a share consolidation (the "Share Consolidation") on the basis that every ten issued existing shares of the Company be consolidated into one consolidated share (the "Consolidated Share") and (ii) to raise approximately HK\$31.35 million before expenses by way of a rights issue (the "Rights Issue") of 104,520,000 rights shares (the "Rights Shares") at a subscription price of HK\$0.30 per Rights Share on the basis of two Rights Shares for every one Consolidated Share held by the qualifying shareholders on the record date, and the net proceeds of the Rights Issue of approximately HK\$29.46 million will be used for purchase of construction equipment and for the Group's operating, administrative and general expenses.

The closing price per share of the Company on that date was HK\$0.04 per share (equivalent to HK\$0.40 per Consolidated Share).

On 28 August 2020, the Company and an underwriter (the "Underwriter") entered into an underwriting agreement, pursuant to the which, the Underwriter has conditionally agreed to underwrite (the "Underwriting") on a non-fully underwritten basis up to 35,000,000 Rights Shares at the subscription price of HK\$0.30 per Rights Share.
